placed with nonrelatives, have more stability, including fewer changes in placements, have more positive perceptions of their placements, are more likely to be placed with their siblings, and demonstrate fewer behavioral problems;

Whereas some relative caregivers receive less financial assistance and support services than do foster caregivers;

Whereas recent studies show foster children enrolled in Medicaid were prescribed antipsychotic medications at nearly 4 times the rate of other children receiving Medicaid:

Whereas youth in foster care are much more likely to face educational instability with 65 percent of former foster children experiencing at least 7 school changes while in care:

Whereas an increased emphasis on prevention and reunification services is necessary to reduce the number of children that are forced to remain in the foster-care system;

Whereas more than 22,000 youth "age out" of foster care without a legal permanent connection to an adult or family:

Whereas the number of youth who age out of foster care has steadily increased for the past decade;

Whereas foster care is intended to be a temporary placement, but children remain in the foster-care system for an average of 2 years;

Whereas children in foster care experience an average of 3 different placements, which often leads to disruption of routines and the need to change schools and move away from siblings, extended families, and familiar surroundings:

Whereas children entering foster care often confront the widespread misperception that children in foster care are disruptive, unruly, and dangerous, even though placement in foster care is based on the actions of a parent or guardian, not the child;

Whereas children who age out of foster care lack the security or support of a biological or adoptive family and frequently struggle to secure affordable housing, obtain health insurance, pursue higher education, and acquire adequate employment;

Whereas on average, 8.5 percent of the positions in child protective services remain vacant:

Whereas due to heavy caseloads and limited resources, the average tenure for a worker in child protection services is just 3 years:

Whereas States, localities, and communities should be encouraged to invest resources in preventative and reunification services and postpermanency programs to ensure that more children in foster care are provided with safe, loving, and permanent placements;

Whereas Federal legislation over the past 3 decades, including the Adoption Assistance and Child Welfare Act of 1980 (Public Law 96–272), the Adoption and Safe Families Act of 1997 (Public Law 105–89), the Fostering Connections to Success and Increasing Adoptions Act of 2008 (Public Law 110–351), the Child and Family Services Improvement and Innovation Act (Public Law 112–34), and the Preventing Sex Trafficking and Strengthening Families Act (Public Law 113-183) provided new investments and services to improve the outcomes of children in the fostercare system;

Whereas May 2016 is an appropriate month to designate as National Foster Care Month to provide an opportunity to acknowledge the accomplishments of the child-welfare workforce, foster parents, advocacy community, and mentors for their dedication, accomplishments, and positive impact they have on the lives of children; and

Whereas much remains to be done to ensure that all children have a safe, loving, nurturing, and permanent family, regardless of age or special needs: Now, therefore, be it *Resolved*. That the Senate—

(1) supports the designation of National Foster Care Month:

- (2) recognizes National Foster Care Month as an opportunity to raise awareness about the challenges that children face in the foster-care system:
- (3) encourages Congress to implement policy to improve the lives of children in the foster-care system:
- (4) acknowledges the special needs of children in the foster-care system;
- (5) recognizes foster youth throughout the United States for their ongoing tenacity, courage, and resilience while facing life challenges:
- (6) acknowledges the exceptional alumni of the foster-care system who serve as advocates and role models for youth who remain in care:
- (7) honors the commitment and dedication of the individuals who work tirelessly to provide assistance and services to children in the foster-care system; and
- (8) reaffirms the need to continue working to improve the outcomes of all children in the foster-care system through parts B and E of title IV of the Social Security Act (42 U.S.C. 601 et seq.) and other programs designed to—
  - (A) support vulnerable families;
- (B) invest in prevention and reunification services;
- (C) promote adoption in cases where reunification is not in the best interests of the child:
- (D) adequately serve those children brought into the foster-care system; and
- (E) facilitate the successful transition into adulthood for children that "age out" of the foster-care system.

SENATE RESOLUTION 467—SUP-PORTING THE GOALS AND IDEALS OF NATIONAL NURSES WEEK, TO BE OBSERVED FROM MAY 6 THROUGH MAY 12, 2016

Mr. WICKER (for himself and Mr. MERKLEY) submitted the following resolution; which was considered and agreed to:

## S. RES. 467

Whereas, beginning in 1991, National Nurses Week is celebrated annually from May 6, also known as "National Recognition Day for Nurses", through May 12, the birthday of Florence Nightingale, the founder of modern nursing;

Whereas National Nurses Week is a time of year to reflect on the important contributions that nurses make to provide safe, high-quality health care;

Whereas nurses are known to be patient advocates, acting fearlessly to protect the lives of individuals under the care of the nurses;

Whereas nurses represent the largest single component of the health care profession, with an estimated population of 3,964,000 professionally active nurses in the United States.

Whereas nurses are leading in the delivery of quality care in a transformed health care system that improves patient outcomes and safety:

Whereas the Future of Nursing report of the Institute of Medicine has called for the nursing profession to meet the call for leadership in a team-based delivery model;

Whereas, when nurse staffing levels increase, the risk of patient complications and

lengthy hospital stays decreases, resulting in cost savings;

Whereas nurses are experienced researchers, and the work of nurses encompasses a wide scope of scientific inquiry, including clinical research, health systems and outcomes research, and nursing education research:

Whereas nurses provide culturally and ethnically competent care and are educated to be sensitive to the regional and community customs of individuals needing care;

Whereas nurses are well-positioned to provide leadership to eliminate health care disparities that exist in the United States;

Whereas nurses are the cornerstone of the public health infrastructure, promoting healthy lifestyles and educating communities on disease prevention and health promotion:

Whereas nurses are strong allies to Congress as the nurses help inform, educate, and work closely with legislators to improve the education, retention, recruitment, and practice of all nurses and, more importantly, the health and safety of the patients for whom the nurses care;

Whereas strengthening nursing workforce development programs at all levels, including the number of doctorally prepared faculty members, and providing education to the nurse research scientists who can discover new nursing care models to improve the health status of the diverse population of the United States, are needed;

Whereas nurses touch the lives of the people of the United States from birth to the end of life; and

Whereas nursing has been voted as the most honest and ethical profession in the United States for each of the 13 years preceding the date of adoption of this resolution: Now, therefore, be it

Resolved. That the Senate-

- (1) supports the goals and ideals of National Nurses Week, as founded by the American Nurses Association;
- (2) recognizes the significant contributions of nurses to the health care system in the United States; and
- (3) encourages the people of the United States to observe National Nurses Week with appropriate recognition, ceremonies, activities, and programs to demonstrate the importance of nurses to the everyday lives of patients.

SEC. 251. ESTABLISHMENT OF CENTER OF EXCEL-LENCE IN PREVENTION, DIAGNOSIS, MITIGATION, TREATMENT, AND RE-HABILITATION OF HEALTH CONDI-TIONS RELATING TO EXPOSURE TO BURN PITS AND OTHER ENVIRON-MENTAL EXPOSURES.

(a) IN GENERAL.—Subchapter II of chapter 73 of title 38, United States Code, is amended

by adding at the end the following new sec-

"\$ 7330B. Center of excellence in prevention, diagnosis, mitigation, treatment, and rehabilitation of health conditions relating to exposure to burn pits and other environmental exposures

"(a) ESTABLISHMENT.—(1) The Secretary shall establish within the Department a center of excellence in the prevention, diagnosis, mitigation, treatment, and rehabilitation of health conditions relating to exposure to burn pits and other environmental exposures to carry out the responsibilities specified in subsection (d).

"(2) The Secretary shall establish the center of excellence under paragraph (1) through the use of—

"(A) the directives and policies of the Department in effect as of the date of the enactment of this section;

"(B) the recommendations of the Comptroller General of the United States and Inspector General of the Department in effect as of such date; and

"(C) guidance issued by the Secretary of Defense under section 313 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239: 10 U.S.C. 1074 note).

"(b) SELECTION OF SITE.—In selecting the site for the center of excellence established under subsection (a), the Secretary shall consider entities that—

"(1) are equipped with the specialized equipment needed to study, diagnose, and treat health conditions relating to exposure to burn pits and other environmental exposures:

"(2) have a track record of publishing information relating to post-deployment health exposures among veterans who served in the Armed Forces in support of Operation Iraqi Freedom and Operation Enduring Freedom:

"(3) have collaborated with a geosciences department that has a medical geology division:

"(4) have developed animal models and in vitro models of dust immunology and lung injury consistent with the injuries of members of the Armed Forces who served in support of Operation Iraqi Freedom and Operation Enduring Freedom; and

"(5) have expertise in allergy and immunology, pulmonary diseases, and industrial and management engineering.

"(c) Collaboration.—The Secretary shall ensure that the center of excellence collaborates, to the maximum extent practicable, with the Secretary of Defense, institutions of higher education, and other appropriate public and private entities (including international entities) to carry out the responsibilities specified in subsection (d).

"(d) RESPONSIBILITIES.—The center of excellence shall have the following responsibilities:

"(1) To provide for the development, testing, and dissemination within the Department of best practices for the treatment of health conditions relating to exposure to burn pits and other environmental exposures.

"(2) To provide guidance for the health systems of the Department and the Department of Defense in determining the personnel required to provide quality health care for members of the Armed Forces and veterans with health conditions relating to exposure to burn pits and other environmental exposures.

"(3) To establish, implement, and oversee a comprehensive program to train health professionals of the Department and the Department of Defense in the treatment of health conditions relating to exposure to burn pits and other environmental exposures.
